

Bug on normal user to fix

2.team leave Calander should not be showing for normal user

3.team leave should not be showing in normal users

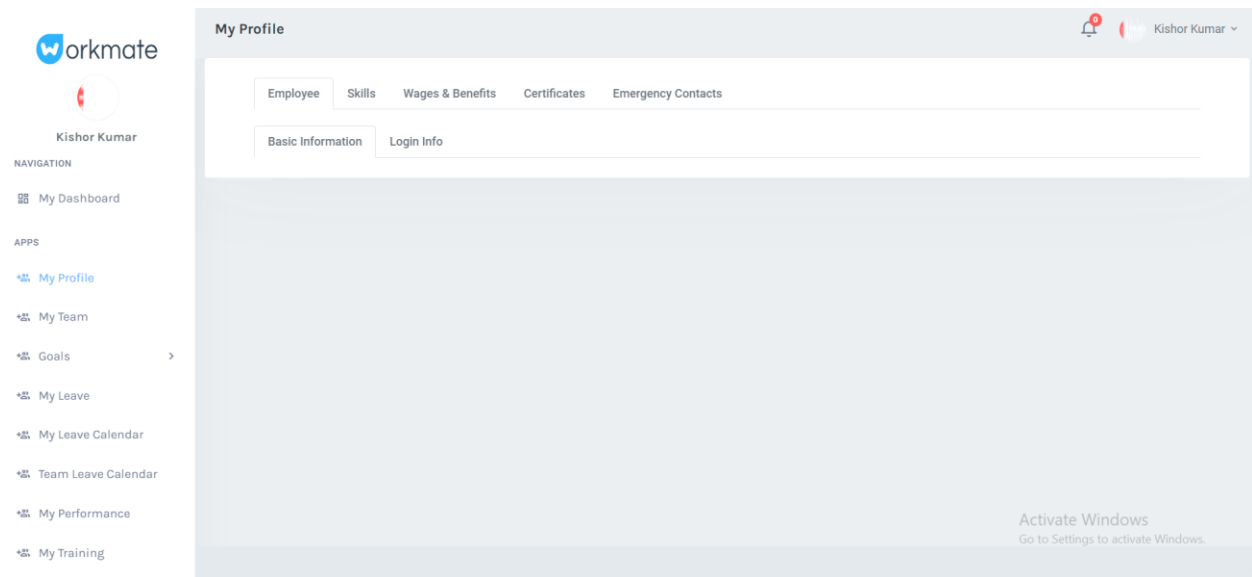

4. remove the view profile option from my team as ive realize normal user will be able to see other employee wages and salary detail and we can let that happen.

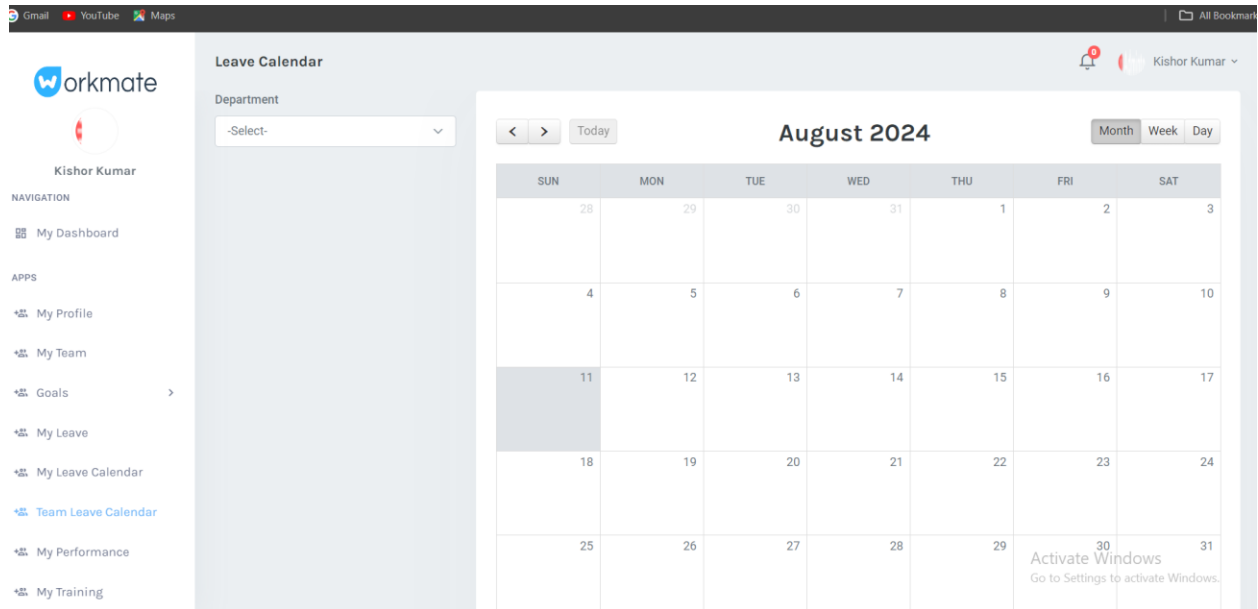

5. Another note for leave. if a leave applied by user fall on a Saturday and Sunday and public holiday then it should not be deducted from their leave allowance. Now we have places like hotel ,tax , airport ect that employee work on Saturday and Sunday and public holidays. We will need an option in admin that control this .option will say count Saturday, Sunday and public holidays as normal working days. This will be in a form of tick box for the 3 option. If these box are ticked then that day will be deduct from their leave allowance. Whatsapp me is that part is not clear.

6. when opening some pages especially my profile and my performance page it not loading properly until refreshed I think it's a java script problem. Please fix

Manager STUFF to fix

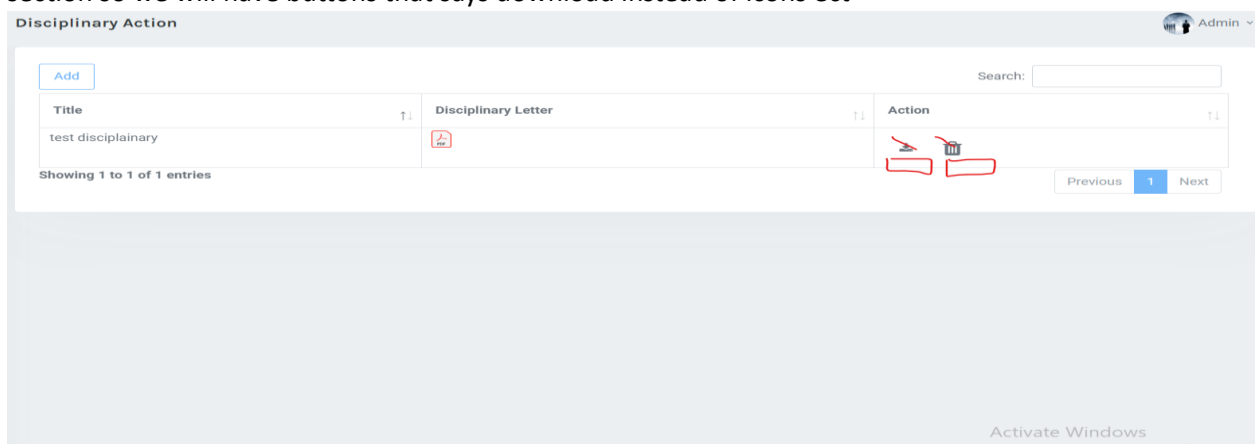

1. We don't need this team calendar anymore as we have replace it with full Calander

So full leave calendar will become team leave calendar . if not sure ask me before doing change.

Stuff to fix in admin

1. In user management we need to add delete option in action for employee, access management and department.
2. In disciplinary action and my resources we need to make the action section consistent so remove the download icon and delete icon and use button instead like everywhere else in action section so we will have buttons that says download instead of icons ect

3. in leave we need to add delete option in action for leave type and public holidays.

4. In goals overview we need to add search and filter by department option also rename title on the page to goals overview

The screenshot shows the 'Team Overview' page. The left sidebar contains a menu with 'Goals Overview' highlighted. The main content area has a title 'Team Overview' and a list of team members: Chetan Bairag, HR, and Rahul Parmar. Each member has a goal progress bar. A red line is drawn from the 'Goals Overview' link in the sidebar to the 'Team Overview' title, indicating a rename action.

5. Move review cycle in performance menu

The screenshot shows the 'Review Cycle' page. The left sidebar contains a menu with 'Review cycle' highlighted. The top navigation bar has a 'Performance' link. The main content area has a title 'Review Cycle' and a table of review cycles. A red line is drawn from the 'Review cycle' link in the sidebar to the 'Performance' link in the top navigation bar, indicating a move action.

Cycle Name	Start Date	End Date	Status	Action
End Of Year Review 2024	01-Jul-2024	31-Dec-2024	In-Active	Edit Delete
Mid Year review 2024	01-Jan-2024	30-Jun-2024	In-Active	Edit Delete
