On managers page to fix

1.team leave calendar need to be change from the current one to this one instead (full leave calendar in admin) this one is no longer in use so will need to be removed. We need to add department filter on the other calendar page. Also the different leave need to be shown in colour code.

2. In Manager we have my performance which is for the manager it self and teams performance that is for the direct report of the manager.

Problem is in both menu both its showing direct report review. In my performance its showing Elton review which should not as this is the managers own performance. Elton appraisal should only show in the managers team performance menu.

3. fix order of menu item for managers

Managers personal stuff should come first then teams menu same should apply to hr
